Optical Stadiometer System

MODEL MX910

Befour's MX910 Measurement Station is unlike any other scale on the market!

The exclusive Opti-Height technology enables fast and accurate height measurements through state-of-the-art design and expert engineering. The 360° ergonomic hand grip and robust headpiece ensures the smoothest, simplest and safest height measurement process available in healthcare. The measurement slide encompasses *Smart Position Technology* meaning it 'stays put' where last left so height rod is always in the ready position for the next patient.

The **"tilt & roll" design** makes transportation of the scale effortless. Operation is simple and intuitive, even for the first time user.

The scale offers many **advanced features which come standard**, including Befour's proprietary MotionLock technology and ECO Weigh battery system, for years of use and allows the scale to be used anywhere.

All Befour scales are **built to last**, constructed of anodized aluminum, backed by an 'industry leading' **3-year warranty** and **USA-Made**.
